Professional Summary

Highly skilled **React and Express Developer** with a strong background in building dynamic, scalable, and high-performance web applications. Proficient in developing **full-stack solutions** using **React.js** for frontend development and **Express.js** with **Node.js** for backend services.

Work Experience

Full Stack Developer (.NET Core & React.js)

LAM Sol | Jan 2024 – till Now

- Engineered full-stack web applications using ASP.NET Core, React.js, and SQL Server, improving system performance and scalability
- Designed and implemented solutions following Clean Architecture principles, ensuring separation of concerns and maintainable code
- Developed and maintained microservices-based architecture, enabling independent deployment and better system scalability
- Built secure and efficient REST APIs, enabling smooth frontend-backend integration
- Designed reusable React components and optimized UI for better performance and responsiveness
- Implemented authentication, authorization, and role-based access control (JWT/Identity)
- Optimized database queries and improved application efficiency
- Collaborated with stakeholders to translate business requirements into technical solutions
- Maintained clean, scalable, and production-ready code following best practices

Frontend Developer (React.js)

The Next Sol | Jan 2021 – Dec 2023

- Built scalable and high-performance web applications using React.js and modern JavaScript
- Designed reusable and modular components, improving development efficiency
- Consumed and integrated RESTful APIs, ensuring smooth data flow between frontend and backend
- Improved application performance through optimization techniques and efficient state management
- Collaborated with cross-functional teams to deliver user-centric solutions
- Maintained clean, maintainable, and well-documented code

Desktop Developer (WinForms & SQL Server)

MMB Sol | Feb 2018 – Mar 2021

- Developed robust desktop applications using WinForms, C#, and SQL Server, improving operational efficiency
- Designed and managed relational databases, optimizing queries for better performance
- Implemented data-driven features, reports, and user interfaces using WinForms
- Identified and fixed bugs, enhancing application stability and user experience
- Collaborated with stakeholders to translate business requirements into technical solutions

Technical Skills

Front End: HTML, CSS(Bootstrap, tailwind) , React.js

Back End: ASP.NET Core (Web API, MVC), C# (.NET Framework & .NET Core), Microservices Architecture, Clean Architecture, And Nesting of Architecture, Windows Forms (WinForms)

Databases: Microsoft SQL Server

Tools Skills: Visual Studio / Visual Studio Code, Swagger (API Testing & Documentation)

Key Responsibilities & Achievements

- ✓ Designed, developed, and maintained **full-stack applications** using **ASP.NET Core, React.js, WinForms, and SQL Server** across desktop and web platforms
 - ✓ Developed and maintained **RESTful APIs** to support scalable and high-performance frontend and backend communication
 - ✓ Applied **Clean Architecture principles** to ensure separation of concerns, maintainability, and scalable code structure
 - ✓ Contributed to the design and implementation of **Microservices-based architecture**, improving system scalability and modularity
 - ✓ Built reusable and responsive UI components using **React.js**, improving user experience and development efficiency
 - ✓ Developed enterprise-level **desktop applications using WinForms**, enhancing business process automation
 - ✓ Designed and optimized **SQL Server databases**, including stored procedures, indexing, and query performance tuning
 - ✓ Integrated frontend and backend systems to ensure seamless data flow and real-time functionality
 - ✓ Participated in requirement analysis, system design, and solution architecture discussions with stakeholders
 - ✓ Improved application performance through debugging, profiling, and optimization techniques
 - ✓ Ensured code quality by following **SOLID principles, clean coding practices, and version control (Git)**
 - ✓ Delivered multiple production-ready systems across **education, enterprise, and business domains**
-

Education

Bachelor in Computer Science Gomal University, D.I. Khan *Sept 2012 – May 2016*

Master. in Computer Science Gomal University, D.I. Khan *Sept 2016 – Feb 2018*
